Bombora

Dear Hiring Manager,

I am currently completing my Masters in Data Science at the Center for Data Science, New York University and I am very excited to apply for the Data Science Intern position at Bombora. I believe my analytical experience and keenness to affect positive change through my work makes me an ideal candidate.

Through my undergraduate years, I have developed a penchant for machine learning and tasks pertaining to understanding data. I have worked on a range of machine learning and deep learning projects which has strengthened my ability to solve complex problems by creatively using the data with the help of statistical modeling and machine learning tools. Articulating the findings of my work in different journals published by Elsevier and Springer has not only enhanced my research acumen but also my communication and interpersonal skills.

I have inculcated a deep commitment to duty and responsibility and worked as a part of a cohered team, leading by example whenever required. I realize the importance of collaboration with different team members to achieve timely and innovative results. During my internships, I communicated with different departments and various stakeholders to accumulate domain knowledge which helped in improving the performance of the algorithms.

One of the things that draw me towards Bombora is the opportunity to drive business impact by leveraging data science. My inspiration to apply for this position thus stems out of the umpteen possibilities this opportunity holds in preparing me for a successful career as a Data Scientist and in bolstering my skills and confidence to deliver value-added solutions to clients. I sincerely hope that my skills and passion for this role at Bombora differentiates me from your talent pool and rewards me with an opportunity to further discuss my application.

Thank you for your time and consideration. I look forward to hearing from you.

Sincerely,

Anjali Agrawal
